(h) Certification Regarding Responsibility Matters (Executive Order 12689). The offeror certifies, to the best of its knowledge and belief, that --

(1) The offeror and/or any of its principals () are, () are not presently debarred, suspended, proposed for debarment, or declared ineligible for the award of contracts by any Federal agency,

(2) () Have, () have not, within a three-year period preceding this offer, been convicted of or had a civil judgment rendered against them for: commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a Federal, state or local government contract or subcontract; violation of Federal or state antitrust statutes relating to the submission of offers; or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, tax evasion, violating Federal criminal tax laws, or receiving stolen property; and

(3) () are, () are not presently indicted for, or otherwise criminally or civilly charged by a Government entity with, commission of any of these offenses enumerated in paragraph (h)(2) of this clause; and

(4) () Have, () have not, within a three-year period preceding this offer, been notified of any delinquent Federal taxes in an amount that exceeds \$3,000 for which the liability remains unsatisfied.

(i) Taxes are considered delinquent if both of the following criteria apply:

(A) The tax liability is finally determined. The liability is finally determined if it has been assessed. A liability is not finally determined if there is a pending administrative or judicial challenge. In the case of a judicial challenge to the liability, the liability is not finally determined until all judicial appeal rights have been exhausted.

(B) The taxpayer is delinquent in making payment. A taxpayer is delinquent if the taxpayer has failed to pay the tax liability when full payment was due and required. A taxpayer is not delinquent in cases where enforced collection action is precluded.

(ii) Examples.

(A) The taxpayer has received a statutory notice of deficiency, under I.R.C. Sec. 6212, which entitles the taxpayer to seek Tax Court review of a proposed tax deficiency. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek Tax Court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(B) The IRS has filed a notice of Federal tax lien with respect to an assessed tax liability, and the taxpayer has been issued a notice under I.R.C. Sec. 6320 entitling the taxpayer to request a hearing with the IRS Office of Appeals contesting the lien filing, and to further appeal to the Tax Court if the IRS determines to sustain the lien filing. In the course of the hearing, the taxpayer is entitled to contest the underlying tax liability because the taxpayer has had no prior opportunity to contest the liability. This is not a delinquent tax because it is not a final tax liability. Should the taxpayer seek tax court review, this will not be a final tax liability until the taxpayer has exercised all judicial appeal rights.

(C) The taxpayer has entered into an installment agreement pursuant to I.R.C. Sec. 6159. The taxpayer is making timely payments and is in full compliance with the agreement terms. The taxpayer is not delinquent because the taxpayer is not currently required to make full payment.

(D) The taxpayer has filed for bankruptcy protection. The taxpayer is not delinquent because enforced collection action is stayed under 11 U.S.C. 362 (the Bankruptcy Code).

(i) Certification Regarding Knowledge of Child Labor for Listed End Products (Executive Order 13126). QASP

**QUALITY ASSURANCE SURVEILLANCE PLAN
FOR
LIGHT ARMORED VEHICLE (LAV) SERVICES**

1.0 General Quality Assurance Surveillance Plan (QASP): This QASP has been developed to evaluate Contractor actions while performing functions associated with providing armored vehicle services per the Performance Work Statement (PWS). It is designed to provide an effective systematic surveillance method of monitoring Contractor performance as detailed in the PWS. The Contractor is reminded that they, not the Government, are responsible for management and quality control actions required to meet the terms of the contract. The role of the Government is simply to conduct quality surveillance to ensure contract standards are achieved. The Plan is not all inclusive and the Government may perform surveillance on any task described in the PWS

2.0 General PWS Scope: The purpose of the PWS is to describe the requirement to provide light armored vehicle services with driver and fuel. As part of this service, the Contractor shall provide all resources necessary to include but not limited to management, supervision, personnel/drivers, training, equipment, materials, supplies, fuel, repair parts, insurance and any other equipment and personnel to accomplish the task of providing armored vehicles with drivers for U.S. personnel in Colombia.

3.0 Contractor Established Quality Assurance Programs: The Contractor shall have a quality control program of inspections and monitoring actions. The first major step to ensuring a “self-correcting” contract is to ensure that the established quality control program provides the measures needed to lead the Contractor to success.

4.0 Specific Work/Tasks Designated for Periodic Surveillance:

REMEDY: Poor performance results in a cure notice and invoices will not be paid until the AQL is met. Continued poor performance may result in contract termination.

5.0 STANDARD: The light armored vehicle services will be provided in accordance with schedules provided by the COR after award. The Contractor shall respond to all service requests and replace a vehicle, if needed within 30 minutes. In the case of Contractor personnel becoming incapacitated due to illness or injury and unable to continue performance on a specific task the Contractor shall provide a replacement immediately. Contractor shall perform the requirements as stated in the PWS.

6.0 SURVEILLANCE METHODS

6.1 100 Percent Inspection: With this method, performance is inspected/evaluated at each occurrence. This method is often costly but can be necessary due to health, safety and other considerations.

6.2 Random Sampling: Random sampling works best when the number of instances of the services being performed is very large and a statistically valid sample can be obtained. <http://www.sqconline.com/mil-std-105.html> (web link to ANSI/ASQZ1.4LVLI)

6.3 Periodic Inspection: This method, sometimes called “planned sampling,” consists planned sampling at specific dates or time intervals. It may be appropriate for tasks that occur infrequently, and where 100 percent inspection or random testing is not desired.

6.4 Customer Input: Although usually not a primary method, this is a valuable supplement to more systematic methods. For example, in a case where random sampling indicates unsatisfactory service, customer complaints can be used as substantiating evidence. In certain situations where customers can be relied upon to complain consistently when the quality of performance is poor, e.g., dining facilities, building services, customer surveys and

customer complaints may be a primary surveillance method, and customer satisfaction an appropriate performance standard. In all cases, complaints should be documented, preferably on a standard form.

7.0 PROCEDURES: Surveillance method will be conducted through periodic visits and/or customer comment. The COR will provide written documentation to the Contracting Officer if the Contractor does not comply with the work schedule and other requirements or with the quality levels required for this service contract.

8.0 CONCLUSION: The QASP will be used by the COR, as a systematic surveillance program to help ensure contract standards are met by adherence to the contractor's approved quality control program. The Contractor is reminded that it, not the Government, is responsible to meet all contract terms and conditions as identified in the PWS.
